THIRD WAVE®
Innovations

C4 SOC™,
SECURITY OPERATIONS CENTER
AS A SERVICE

Third Wave Innovations™ combines decades of experience and a robust intelligence platform that enables superior security analytics, 24/7/365 coverage, and ongoing protection. We leverage threat detection features with endpoint prevention and response capabilities in one solution. These analytical and protection capabilities, empowered by the speed and extensibility of our intelligence platform, C4™, help analysts to defend your organization from threats before damage and loss occur.

What comes with your C4 SOC™ Service:

- Dedicated incident response management
- Quick identification of threats and system misconfigurations
- Assisted triage to prioritize your security strategy
- In-built case management with automated actions
- Detection of signatureless attacks with prebuilt machine learning
- Enhanced threat intelligence

Why C4 SOC™?

C4 SOC™ is built on the Third Wave Innovations™ next-generation, cloud-native, C4 Intelligence platform™ with enterprise scalability and advanced AI. Equipped with faster MTTR, the platform empowers you with faster recognition of possible attacks. Our highly certified security professionals use visibility and data-rich platforms to enable a secure and protected environment to run and operate your business.

Third Wave Innovation's™ team of certified cybersecurity SOC professionals leverage our powerful C4 Intelligence platform™ to provide:

▶ **Incident and Event Management**
- Dedicated incident response manager
- Eyes-on-glass system monitoring (U.S. Based)
- Resources available 24/7/365 (U.S. Based)

▶ **Monthly Executive Reporting**
- Active Agents Summary
- Suspicious Service Summary
- C4 SOC™ Incident Summary
- Data Collection & Ticket Volume Summary

▶ **Tool Integration with Existing Set**
- Endpoint protection with real-time monitoring
- Firewall protection
- Cloud-native resources

▶ **Process Integration Flexibility**
- Help ticket automation
- Change control
- Adaptable meeting tools (Slack, Teams, Zoom, etc.)

Count on a consolidated yet adaptable plan to ensure maximum protection

- **Endpoint Protection** – We guard against attackers attempting to interfere with daily functions on your Windows, macOS, and Linux operating systems.
- **Malware Protection** – Detect malware and diffuse alerts to prevent attacks on your host devices.
- **Ransomware Protection** – Prevent ransomware attacks on Windows systems by analyzing data from low-level system processes.
- **Memory Threat Protection** – Stop in-memory threats such as shellcode injection, which are used to evade traditional file-based detection techniques.
- **Malicious Behavior Protection** – Monitor behaviors to detect suspicious activity. Behavioral signals are much more difficult for adversaries to evade than traditional file-based detection techniques.
- **Attack Surface Reduction** – Prevents attackers from stealing credentials stored in Windows system process memory.
- **Antivirus Updates** – Register for our antivirus service and receive critical updates and protection signatures.
- **Threat Intelligence Integrators** – Get a streamlined view of collected threats to protect commercial, government, and open-source feeds.

Build an effective defense strategy by partnering with Third Wave Innovations™.
